

OMEGA Productive Services, Inc.

ISO 9001:2000 REGISTERED

ABOUT US

OMEGA Productive Services, Inc. is a full service independent engineering firm specializing in a variety of process improvement services to reduce waste and improve productivity.

Our customers fall into two main groups:

- Industrial processes for chemical manufacturing and paint finishing industry
- Building energy efficiency

OMEGA's team of highly qualified, system orientated professionals applies Math, Science, Technology and Economics to implement cost effective solutions for our customers.

By looking at the whole picture we are able to reduce waste in manufacturing materials, process energy, process abatement equipment energy, and building HVAC energy.

For most projects OMEGA provides a low cost initial survey to establish opportunity, followed by an in-depth feasibility study to define changes required. From this ground work we can provide design and construction services as well as on-site services to ensure results are achieved or improved.

Core Competencies:

- Full Service Engineering for Process Improvement
- Independent (Objective) Engineering
- Problem Solvers with the Systems Approach
- Project Management for Construction Work
- Skills in Identifying Cost Saving Opportunities
- Ability to Write Cost Save Projects
- Ability to Measure/Control Painting Environment
- Ability to Operate in Customer Facilities Working at All Levels
- International Perspective

Services Include:

- Process Improvement Feasibility Study
- System Energy Reduction Programs
- System Material Reduction Programs
- Annual Integrated Service Plan
- System Engineering and Project Management
- Process Key Operating Parameter Monitoring Systems
- Spray Booth Environmental Sensing Equipment for Air Balance, Temperature, Humidity and Downdraft
- Oven Environmental Sensing Equipment for Air Balance
- Process Optimization Studies Using Design of Experiment (DOE)
- Painting Efficiency Testing
