

PERFORMANCE CONTRACTING

Performance Contracting/Project Financing

OMEGA is pleased to announce that it now offers project financing through performance contracting.

OMEGA is a full service independent engineering company specializing in spraybooth and oven technology with an emphasis in air and water system design, measurement and balance.

Performance contracting provides the customer with a zero cost method of funding *OMEGA*'s traditional engineering services and products. The performance contract provides customers with guaranteed annual utility savings, which are then used to fund *OMEGA* projects.

Potential *OMEGA* performance contracting projects include:

- Spray booth process air/water optimization
- Oven thermodynamic optimization
- VOC abatement system optimization
- Paint equipment run time reduction
- Paint room HVAC optimization/integration
- Paint process lighting upgrade
- Vehicle blow off compressed air reduction
- Paint mix compressed air reduction
- Spray booth SMARTAIRE™ filter upgrade
